7. Gyeongsin Park (South Korea)
8. Michael Wells (United Kingdom)
9. Osamu Matsubara (Japan)
10. Robert Eckstein (Australia)
11. Samir S. Amr (Saudi Arabia)

DAY 3 (April 26th, 2017) Session one; 8.30-10am

**Title: Training pathology residents/registrars when resources are limited**

**Chairs:** Dr. Bethy S. Hernowo and Prof George Kontogeorgos

Dr Dilani Lokuhetty, Dato' Dr Norain Karim, Prof Dr George Kontogeorgos  
Dr. Bethy S. Hernowo,  
Dr Filipina Amosa-Lei Sam and Dr Gyeongsin Park

“This session generated lot of interest and was successfully concluded. All the presenters were good and presented their perspective in relation to the setting. It was good to know regarding path training in the regional setting.” (Dilani Lokuhetty)

“..illuminating and precise describing the difficulties faced in recruiting trainees and retaining them.”( Samir Amr)

“I have also realised how we are still struggling with basic issues or problems that still hold back the progress of pathology education in the Pacific like convincing our national leaders to prioritize pathology development and encouraging registrars to pursue pathology as a career, while other developing countries like Indonesia and Malaysia still managed to accomplish so much development and progress with the limited resources that they have.” (Filipina Sam)

My congratulation to you for coordinating the session, that has attracted a full attendance in the hall and generated interest to the junior and seniors in pathology” (Norain Karim)

“The Training pathology residents/registrars when resources are limited went very well.” (George Kontogeorgos)

DAY 3 (April 26th, 2017)

Session two 10.30-12.00 am

Title: **Mistakes made, Lessons learnt**

Chairs: Prof HK Ng and Prof Samir Amr

Prof HK Ng, Prof Blake Gilks, A/Prof Bob Eckstein, Prof Samir Amr, Prof Michael Wells, Prof Georgios Kontogeorgos, Prof Osamu Matsubara (absent)

“The session was very well attended and a great success” (Blake Gilks)

...was stimulating, interesting with a bit of self flagellation!. (SamirAmr)

"The sessions were wonderful and really well planned with excellent choice of speakers and content. The first session gave an insight into the status of Pathology Education in South East Asia while the second session enthralled all on the pitfalls to be avoided in Pathology practice. Heartiest congratulations and compliments to Jane Dahlstrom and all the speakers for the excellent sessions" (Francisco Couto)
